Self-Taught Software Engineer

Worked over 2 decades in software development using latest technologies to build user-friendly products for companies in America, and Europe for international brands like Coca-Cola, Nestlé, Beiersdorf, Nextel, Kimberly-Clark, among others. Review some of my previous projects here.

Skills

Methodologies: Agile, Scrum, Kanban **Development:** OOP, MVC, MVVC **DevOps:** AWS CI / CD
Languages: HTML5, XHTML, CSS3, SASS, JavaScript, TypeScript, PHP, Java, Python, ActionScript3
Frameworks: React, Gatsby, Next, Angular, NodeJS, Express, Webpack, Code Igniter
APIs: RESTful APIs, GraphQL, Apollo, Google, Twitter, Epsilon, Brightcove, Hubspot, Mailchimp
Libraries: jQuery, Redux, Webpack, WebGL, ESLint, Prettier, GreenSock, GSAP, Bootstrap, Material Design, Lodash, TailwindCSS, Styled-Components, Scroll Magic, Three.js, Axios
Databases: SQL, MySQL, NoSQL, MongoDB, Cloud DB's **Test-Driven Tools:** Jest, Enzyme
Version Control: Git, GitHub, BitBucket **Servers:** Apache, AWS EC2 / S3, Firebase Auth / DB
Software: Adobe CC Suite, SketchUp, Microsoft Office Suite, Postman, Bitvise
Spoken Languages: English, Spanish (Native)

Work Experience

Senior Lead Full-Stack Developer, Jul 2019 to Jun 2022 – **WUNDERMAN THOMPSON**, Washington, DC
Lead developer, defining data architecture, designing, developing, testing, deploying, and maintaining several high-traffic responsive websites, interactive experiences, rich media banners and user medical tools for pharmaceutical companies like Pfizer, Merck, Johnson & Johnson, Boehringer Ingelheim, Kaiser Permanente, among others. Worked in a fast-paced work environment delivering cutting-edge technology products using modern frameworks like TypeScript, React, Redux, Node.js and Express, with a pixel-perfect level of detail and commitment.
Achievement Highlights:

- Received the "Matt Reese Employee of The Year Award" for innovation, excellence, and leadership.
- Contributed software engineering expertise in the planning process of products and services through the software lifecycle.
- Assumed the leadership and management of the development department (frontend and backend teams) as interim director after the departure of our former director.
- Assigned task and projects to developers based on abilities and experience. Cultivated a one-to-one professional relationship with team members to help them to grow professionally.
- Participated in client meetings translating technical issues into easy-to-understand solutions, achieving agreements with clients based on cost-benefit decision making.

Senior Web Developer, Dec 2016 to Jul 2019 – **WUNDERMAN THOMPSON**, Washington, DC
Achievement Highlights:

- Mentored entry and mid-level developers, preparing them to take an active participation of the development of the department projects. Trained new department members to integrate them to our development process.
- Facilitated customization of systems by encouraging development team to adopt high level standards for software application development, architecture, continuous deployment, innovative frameworks, modern IDEs, and tools.
- Interviewed candidates to the department based on the demands of the position and the incoming projects to be developed.

Web Developer, Nov 2014 to Dec 2016 – **WUNDERMAN THOMPSON**, Washington, DC
Achievement Highlights:

- Introduced methodologies and best practices that enhanced product definition, release processes and customization of applications to client needs creating products of undemanding scalability and facile maintenance.

- Created quality standards for the development of banners and rich media banners that were later adopted by other branches of the company. Contributed with my experience in the process of conceptualization and brainstorming of banner campaigns.

Software Developer, Mar 2008 to Sep 2014 – **Multiple Advertising Agencies**

Web Developer / Content Creator, Jun 1996 to Jul 2003 – **YUPI / CIUDAD FUTURA**, Miami, FL / Madrid, Spain
Developed content related to Video Games: Articles, News, Tools, and Guides, among others.

Education

2023 - Northern Virginia Community College – Annandale, VA (Computer Science – AS)
Undergraduate. Completed courses: Computer Science, University Math, University Physics. GPA: 4.0
Phi Theta Kappa Honor Society

2005 - Universidad Nacional Mayor de San Marcos – Lima, Peru (Electronic Engineering – BE)
Undergraduate. Completed courses: University Math, University Physics.

Last Side Projects

- **Employee Feedback App** Typescript – React – Redux Toolkit – Firebase Auth / Database – Material UI – ESLint
- **Tweet Feed Kiosk** Typescript – React – Redux Toolkit – NodeJS – Express – Styled-Components – Axios – Lodash
- **Metaverse Project** Typescript – React – Redux Toolkit – ThreeJS – WebGL

Last Work Projects

- **Pfizer 3D Discovery Center** React – Redux – Typescript – Three.js – Material Design – Bootstrap 4 – Brightcove API
- **Exploring Kaiser Permanent** React - Redux – Typescript – Three.js – Material Design – Bootstrap 4
- **Understanding ILD Progression** Angular 8 – Typescript – Custom-Made Animation Engine – Bootstrap 4
- **Lungs & You®** PHP – Angular – REST APIs – Google Maps API – Brightcove API
- **OFEV®** PHP – Angular – REST APIs – Brightcove API
